

Volunteer Fundraiser opportunity.

Create Hope is a new Christian charity based in Bracknell, offering emotional support to children and families through creative and play therapy.

Our hope is to reach more families in need of emotional support; families affected by different environmental issues such as domestic abuse, family separation, bereavement, family conflicts, mental health, drug and alcohol addiction, abuse to name a few. We aim to come alongside parents and children giving them space to explore and express their emotions and move towards healing and change.

So.....

- Do you have experience writing fundraising bids? Or a willingness and openness to learn? - we can offer some training.
- Are you motivated and able to use your own initiative?
- Do you have time you can invest in this innovative new charity? - we'd hope to make around 5-10 applications each year and so given the amount of repeat material the time commitment would actually be quite limited.

Then this could be the perfect opportunity for you.

We are after a part time volunteer fundraiser to help us make applications for grants and trusts. Ideally a self-starter who can explore different sources of funding and then put together a proposition on behalf of our Charity.

If you are interested please get in contact to discuss further.
